Design Challenge: Can You Catalyze Earth Change for $130?

Moonifest is a newly forming nonprofit dedicated to funding and nurturing projects of change and unfurling that support Earth regeneration. Our three categories of funding include Womyn, The Arts, and Earth Regeneration. Extra credit for your creative ideas that span multiple categories!

We are looking forward to funding up to 13 grant units in our next round. We are a service incubator. We support and fund positive social viruses, projects of activation and awakening that leverage local good for global regeneration. In what creative way can you use the patterns of nature to enhance Earth vitality, generativity, frolicking, and lushness? Share your brilliant ideas and help us moonifest Earth liveliness!

We fund earth regeneration.

We have created simple, direct, online means for you to apply for micro-grants. You select the number of $130 grant units you'd like to apply for. Grant timelines are 02 August and 02 February.

A simple 2-page form or online application makes applying easy.

We make available Moontors to help support and nurture your creative journey.

Next Grant Cycle Opens Welcoming Your Great Ideas –
We are accepting applications for micro-grants all year long, with these review timelines: **02 August** and **02 February**
Grant applications require two letters of enthusiasm from co-conspirators or supporters, a one-page description of the idea or project you'd like funded, and any other materials you'd like to offer. Scan your hand-drawn pics & scribbles, send us links and context or past examples of work. Inspire and delight us! We have grant applications in three categories...
