Please share with us your idea. Who will you work with? How will you activate Earth wisdom? The more specifics of plans, timelines, goals, people, and groups that you can share about your vision, the more compelling your application will be. Be sure to include how many micro-grant units of \$130 you would like and how you would use the funds.

What will be the first output of your Moonifestation? How will you know if your Moonifestation is successful? How many Earth sentients will your project touch? When in the next six months will the project be complete? What will be some important milestones along the way? What are some of the challenges you face in your Moonifestation?

Describe how th project fulfills the Moonifest Group's mission. Please also include two letters of enthusiasm from co-collaborators or supporters. Pictures, scanned doodles, any kind of supporting material is also welcome!
